UNIVERSITI TEKNOLOGI MALAYSIA

"Inspiring creative and innovative minds"

SCRG SEMINAR

*Emerging Technologies in Soft Computing
With Industrial Applications*

June 1-3, 2011

INB RESORT, AYER KEROH MALACCA

Open to ALL SCRG Students

Organizers :

**Soft Computing Research Group (SCRG)
& Postgraduate Office**

Faculty of Computer Science and
Information Systems,
Universiti Teknologi Malaysia, Malaysia

Contact Persons:

**Prof. Dr. Siti Mariyam Shamsuddin,
Head, Soft Computing Research Group
K-Economy Research Alliance (RAKE)**

Universiti Teknologi Malaysia

E-mail: mariyam@utm.my;
sitimariyams@gmail.com

**Assoc. Prof. Dr. Siti Zaiton Mohd Hashim
Deputy of Postgraduate Study**

Faculty of Computer Science and
Information Systems,

Universiti Teknologi Malaysia

sitizaiton@utm.my; sitizaitonm@gmail.com

In recent years, there are emerging needs for Soft Computing Systems evolved in science and engineering field along with the optimization and clustering techniques. Solution to most of these problems has become easier by application of these technologies. The mushrooming births of new intelligent system architectures are often due to fusion and hybridization of different learning and adaptation of either standard or advanced soft computing techniques in pattern recognition and data mining. This seminar aims to bring together the fundamental pillar of Soft Computing in various applications, investigating the feasible solutions in solving real word problem that can benefit the researchers, practitioners and engineers.

SUBMISSION GUIDELINES

Paper format: Lecture Notes Computer Science (LNCS), Springer

Poster format: A1 size

Details of the paper and poster format are published at:

<http://gmm.fsksm.utm.my/~mariyam/>

Important Dates:

Deadline for paper and poster submission: May 23, 2011

Submit your paper and poster to scrgofis@gmail.com
